PROFESSIONAL SUMMARY

Detail-oriented and analytical fresher with a BCA (CGPA 9.36), skilled in SQL, Python, Power BI, and Excel. Experienced in cleaning, analysing, and visualizing data to uncover trends and support business decisions, with hands-on project work spanning EDA, dashboarding, and database querying. Eager to bring strong problem-solving and communication skills to an entry-level Data Analyst role, turning raw data into clear, actionable insights for stakeholders.

TECHNICAL SKILLS

- **Data Analytics & Visualization:** Power BI, Tableau, Looker Studio, Dashboard Development, DAX
- **Programming & Data Processing:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL), Exploratory Data Analysis (EDA).
- **Data Engineering Fundamentals:** ETL Pipelines, Data Modelling, Data Cleaning, Data Validation.
- **Tools:** LLMs, Jupyter Notebook, GitHub, MS Excel (Advanced), VS Code.
- **Soft Skills:** Analytical Thinking, Stakeholder Communication, Attention to Detail, Problem Solving.

PROFESSIONAL EXPERIENCE

Data Science Intern | Skill Forge E-Learning Solution Pvt Ltd, Bengaluru *Jun 2024 – Jul 2024*

- Processed and synthesized **10,000+ records** with a cross-functional team to identify operational trends and actionable business insights.
- Implemented web scraping pipelines to collect external market data, expanding the dataset for ML-related analysis.
- Developed Python automation scripts that reduced manual pre-processing effort by **30%**, significantly improving reporting efficiency.
- Maintained structured documentation for all analytical processes, ensuring high reporting accuracy and quality standards

KEY PROJECTS

SQL Dataset Analysis | SQL

- Wrote complex SQL queries (joins, aggregations, window functions) to extract and analyse structured datasets.
- Identified data quality issues and business insights, presenting findings in a clear, structured format.

E-commerce Operations Dashboard | Power BI

- Integrated and validated 1,000+ records from multiple sources to ensure data consistency.
- Developed 15+ DAX measures and KPIs to analyse YoY growth and regional business trends.
- Visualized top-performing revenue categories, identifying drivers contributing to 68% of total sales.

Coffee Sales Analysis & EDA | Python, Pandas, Matplotlib, Seaborn

- Conducted end-to-end exploratory data analysis on 5,000+ sales records to identify seasonal demand patterns and product performance.
- Performed intensive data cleaning, feature engineering, and statistical validation using Python libraries in Jupyter Notebook.
- Developed visualizations including correlation heatmaps and trend analysis to uncover hidden business opportunities.

Finance Performance Dashboard | Microsoft Excel, Pivot Tables

- Built an interactive financial dashboard in Excel to track key business metrics and budget variances.
- Utilized Pivot Tables, VLOOKUP & XLOOKUP, and advanced charting to synthesize raw financial data into executive-level insights.
- Streamlined data entry and processing workflows to ensure high reporting accuracy and data quality.

EDUCATION

Bachelor of Computer Application (BCA) | 2021 – 2024

Bengaluru North University | CGPA: 9.36 / 10

CERTIFICATIONS

- Microsoft Power BI Certification
- HCL Python Programming Certification
- Google Cloud Career Readiness Program
- Tata GenAI Powered Data Analytics Virtual Experience Program
